We make complex calculations easy!

Helping organizations save time and money every day.

EasyAdmin by Decusoft was developed to streamline the Taft-Hartley union benefit fund administration process and provide users with a reliable, cost-effective software solution to tackle their most complex tasks.

While **EasyAdmin** was originally developed to service the needs of the union market, our solution provides numerous advantages to corporate organizations as well.

Organizations with:

- Government contracts
- A mix of union and non-union employees
- Multiple bargaining units
- A need for help with administering Pension Funds, Disability Funds, Annuity Funds, etc.

All will benefit from the array of applications that **EasyAdmin** has to offer.

With **EasyAdmin**, the complex calculations necessary to manage unions, prevailing wages, and FLSA requirements are simplified. Our software will integrate with any payroll system, making the processing of complex payroll calculations seamless.
